miss fish BIO 14.05.2006

Miss fish returned to Copenhagen in 2000 after living in Berlin and London for several years and founded the group dunst with other trashdrags, artists, activists, djs, musicians and filmmakers from the queer underground. Having trained as a media and performance artist, inspired by butoh dance and puppet theatre, miss fish soon became a known creature on the Copenhagen night club scene with his grotesque and imaginative shows. The debut show "Pinocchio's Diary" 5. Maj 2001 at a local gay bar was followed up with frequent solo shows and dunst performances in Denmark and in Stockholm, Barcelona, Berlin, Zürich and Amsterdam.

miss fish grew up with punk, 80'ies indie pop and American no-wave and soon after the debut as a performance artist, began to compose his own songs. The music was mostly programmed and arranged with graffiti painter and DJ minimal martin from dunst. The dunst compilation CD ODEUR released on the Copenhagen label Useless Salvation in 2004 contains two early miss fish tracks from shows in the period 2001 - 2002. After the release of the ODEUR CD, miss fish and minimal martin spiced up their electronic indie punk with live guitars. On the latest three tracks, guitarist Luis to Kill, from Berlin electro-rockers Glamour to Kill joins in to perfect the electro punk style. miss fish & luis have been on stage together in Berlin several times as a special night club act.

The song "The Beauty Regime" is the first track with Luis to Kill & minimal martin to be released on the Compilation CD "Berlin Insane Vol. 3" from Pale-Music in Berlin 08.10 2005.

Miss fish is currently working with Luis as producer and and with Guiseppa De Bellis and Mathuresh from the Copenhagen electro duo Undergram on the first miss fish solo album to be released in 2007.
